# Gatalogue Cuffmouldings Architectural Mouldings Catalogue

A range of easily applied solid decorative mouldings, TUFFmouldings delivers creativity with stylish exterior design that's always in demand.

TUFFmouldings are solid lightweight architectural mouldings which provide a professional finish to any style of project. Whether it be Contemporary, Georgian, Colonial, Modern or even Hampton TUFFmouldings can be custom designed and manufactured to meet your specific requirements whether new or to replicate existing profiles.

### in 2 forms:

Lightweight high-density EPS polyurethane hard coated - perfect for the larger more complex designs where weight can be a factor

Cementitious polymer modified mouldings more suited to applications where there is a higher impact resistance required.

#### Mouldings as Displayed

A) WS12 - see page 8B) AM18 - See page 4C) PS13 - see page 14

TUFFmouldings are produced to a standard 3 metre length from the large range of profiles as contained in the mouldings catalogue which are also held in stock. Should your design require custom lengths, these can be produced to order. Also various Arches, Bullseyes and Curves and columns can be manufactured from our range or custom made to your requirements.

## ? Why use TUFFmouldings?

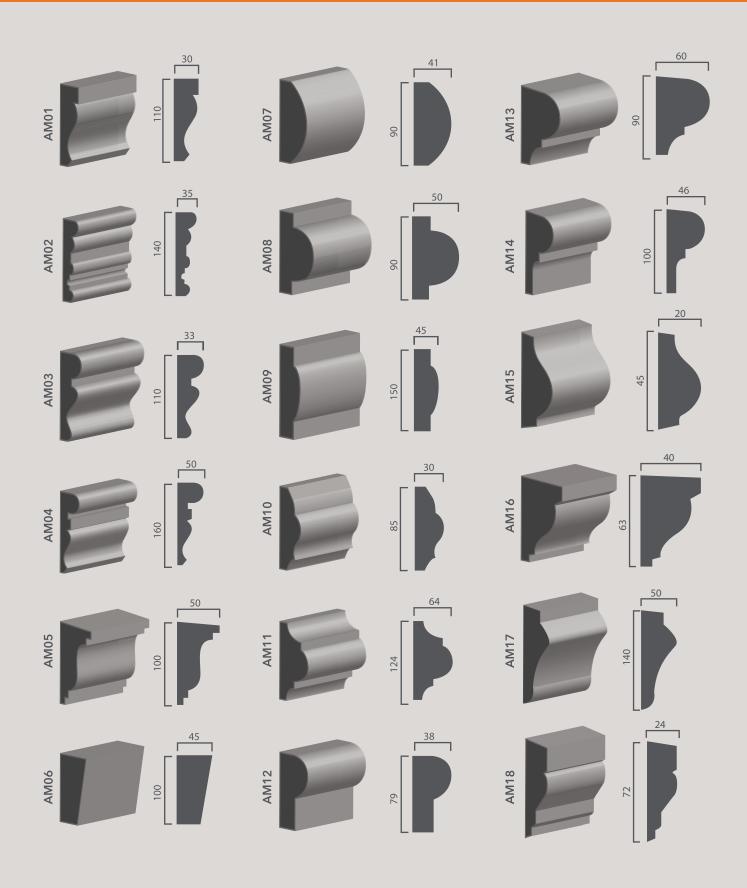

All TUFFmouldings are manufactured right here in WA from our showroom/factory premises in Malaga. TUFFmouldings can be purchased as supply only for DIY (with installation details supplied on request) or installed by one of TUFFTEX's accredited installation teams, who have more than 20 years of installation experience.

For weekend viewing, please see our comprehensive display at Home Base Subiaco or visit our website for more information and galleries to inspire.
