Thickness: 1.1 - 1.5mm

## TUFFTEX ROLL-ON

Coverage: 12-16m<sup>2</sup>

Thickness: 0.6 - 1.0mm

## WHY TUFFTEX

TUFFTEX has an extensive range of trowel-on and roll-on finishes. All products are 'Acrylic' based - not cement, which means they provide excellent adhesion to all surfaces allowing for absorption, shrinkage and expansion which overall resists cracking. TUFFTEX recommends an accredited 'Texture Coater/Applicator', prepare the surface and apply TUFFTEX Primer and TUFFTEX Texture to ensure a professional finish particularly in coastal regions.

To find a Texture Coater/Applicator to assist you with your project, please contact us and we will point you in the right direction. In addition, by appointing an accredited Texture Coater/Applicator, your project comes with a local Western Australian approved **7 YEAR WARRANTY** from TUFFTEX to give you peace of mind and reassurance.

TUFF Shield Texture Paint can be applied to match the colour of the texture finish. This gives the surface extra protection for coastal regions of WA due to harsh weather conditions. However, the biggest advantage of applying TUFF Shield Texture Paint is the extended 7 Year warranty - giving you an overall **14 YEARS WARRANTY** or extra piece of mind.

Other specialty finishes available on request.
