

A SUSTAINABLE YET AFFORDABLE BUILDING SOLUTION.

TUFFWALL is a pre-finished thermal and lightweight cladding system, suitable for many building projects.

A tough yet lightweight solution in sustainable building, TUFFWALL delivers energy efficiencies and national accreditations which means piece of mind for your next project.

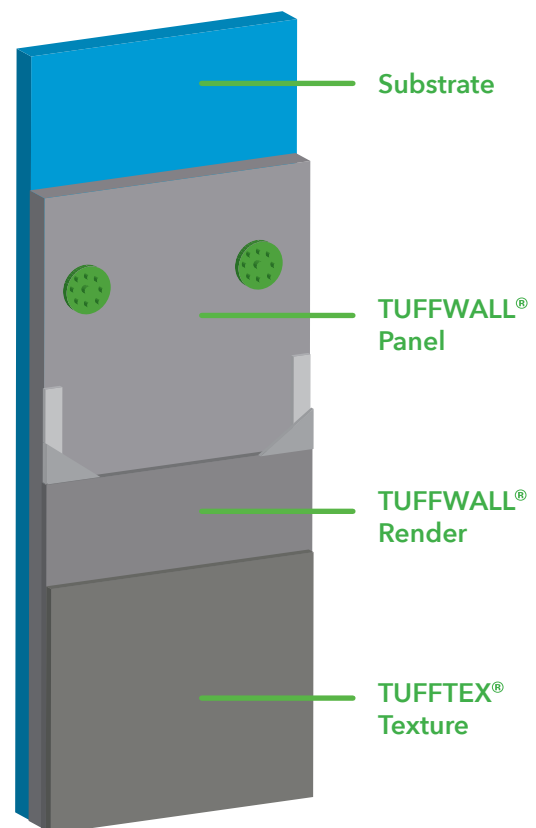

TUFFWALL is proudly WA made for WA conditions, manufactured in Malaga WA.

WHY USE TUFFWALL FOR YOUR NEXT BUILD OR RENOVATION?

- Lightweight and pre-rendered - reducing construction time and scaffolding costs
- High Thermal Rating - achieve up to an R3 value when using 100mm EPS option
- Achieve a textured finish in your choice of colour
- Made in WA
- Offering supply and installation service or supply only
- Offering NATA national accreditations.
